HIERARCHY IS THE REAL WATER HOG

Attempts Now Being Made to Corral All Waters on Uintah Reserve.

WASATCH DEVELOPMENT COMPANY WANTS EARTH

Files Four Applications the Past Week for Water Rights on Reservation.

Several new filings have been made in the last few days for water rights in the Uintah reserve. A casual reader might conclude that this new country is to be the center of industrial activity of the West for the next decade, and should good mines be opened and developed no prophet nor seer would need a revela-tion to say what the probabilities of this new country would be.

Two Obstacles in Way.

To a prospector there seems two great obstacles to progress, which only the discovery of well-paying mines can overcome, and those two obstacles are the machinations of the hierarchy and the presence of indolent Indians on the best

Bloated Water Hog.

The Wasatch Development company appears to be the bloated water hog that is attempting to stretch over and corral all the streams in the reserve for all kinds of purposes. This week this concern files four applications for water rights on streams in the reserve.

What Hierarchy Desires.

What Hierarchy Desires.

From Lake Fork 400 second-feet are asked for, to be diverted at a point tenth chains west of corner to sections, 28, 27, 31, 25, township I south, range 4 west. The canal is to be 20 feet wide, 6 feet deep and 15 miles long. This water is to be used to trigate 24,900 acres, consisting of sections 18, 19, 20, 21, 22, 28, 27, 28, 23, 25, 28, 26, 21, 22, 23, 24, 25, 25, 26, 27, 28, 22, 28, 27, 28, 23, 24, 25, 25, 27, 28, 23, 26, 27, 28, 27, 28, 20, 30, 31, 32, 33, 34, 35, 36, of township 2 south, range 1 west, and sections 12, 18, 23, 24, 25, 25, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, of township 2 south, range 2 west.

Another Tract for Tithes.

Another Tract for Tithes.

Another tract for littles.

The same company prays to be given and hopes to be "sinstained") water from the Duchesne river, out-take to be 27.77 chains north and 7.82 chains west of corner of townships 3 and 4 south and ranges 3 and 4 west, canal to be 18 feet wide, 4 feet deep and 15 miles in length. This water is to irrigate 19,000 acres, which includes sections 1, 12, 13, 15, 16, of township 3 south, range 2 west, and sections 3, 4, 5, 6, 7, 8, 9, 17, 18, of township 3 south, range 1 west.

Wante More Terrestrial Power.

Wants More Terrestrial Power.

Wants More Terrestrial Pewer.

Through its sccretary, Joseph W. Musser, the Wasatch Development company fles notice of application for 200 second feet of water to be taken from the Duchesse river, southwest of the northeast corner of section 11. township 3 south, range 5 west. Diverting canal to be 25,400 feet in length. Double-discharge turbine wheel to be used, giving 2500-horse bower. The power is to be used for electric lighting, heating and power purposes. In divers parts of Wasatch county.

And Then Some.

And Then Some.

The same corporation asks for another 200 second-feet from the same river and for the same purposes, to be diverted from the river northwest of corner of lownships 3 and t south, ranges 3 and 4

west.
Up to date the Wasaich Development company has four filings for water for power purposes, aggregating \$000-horse power, and two filings for agricultural purposes, amounting to 34,000 acres.

High Pressure Peltons.

J. A. Anderson, Deseret National bank, wants an appropriation of 400 second-feet from Green river, diverting canal to be-gin at southeast corner of section 19, township 1 north, range 8 west, canal to be 50,000 feet in length. Pelton wheels are to be used and operate under a head of 70 feet. Mr Anderson expects to develop 29,000 horse-power with this plant, to be used for mechanical and electrical opera-tions over a wide scope of territory.

May Be Abandonments.

As Capt. C. G. Hall, in behalf of the Lamanites, began filings for water in June, his claims are prior in most cases, and there will likely be abandonments of lands by those who have filed on them after the true condition of the water situation becomes apparent.

CHICAGO IS BOASTFUL

Claims a Large Increase of Assessed Valuation.

CHICAGO. Sept. 1.—The total assessed valuation of Chicago real estate, as returned last night by the Board of Review for 1905, is \$295.12.133. an increase of \$4,-182.586 over the reviewers' figures for the previous year. This means an increase in the last year of \$29.812.333 in Chicago real estate, full cash valuation, which is five times the assessed valuation.

The increase is due mainly to building improvements and, in the opinion of the Board of Review, is a notable indication of the city's prosperity, despite industrial troubles.

Distilling Ship Goes to Sea. SAN FRANCISCO, Sept. 1.—The United States distilling ship Iris came down from the Mare island navy-yard and passed out to sea today without giving any information as to her destination. She was

towing a large barge.

It is believed that the Iris is towing the barge to Honoiulu, whence she will proceed to the Cavite and Olongapo naval stations in the Philippines.

Blacksmiths Postpone Strike.

TOPEKA, Kan., Sept. 1—The black-smiths employed at the Santa Fe shops old not strike today, as was expected. The blacksmiths issued a statement giv-ing the company until October I to with-draw the bonus system from the shons. Unless the bonus system is withdrawn by that date the blacksmiths' union must call a strike at the shops or leave the Ameri-can Federation of Labor.

Santa Fe Machinists Meet.

TOPEKA, Kap., Sept. 1.—The annual meeting of District Lodge No. 4 of the international Association of Machinists commenced here today. The district includes all local unions at points on the Santa Fe system. About fifty delegates are in attendance. The meeting was called to order by President L. C. aleyer of Fort Madison, Ia. After a number of committees had been appointed, adjournment was taken until tomorrow.

Witte Denies Interview.

PORTSMOUTH, N. H. Sept 1-M. Witte desired to state that the report of the intervisw with him published by the St. Petersburg Slove and telegraphed back to Europe and America is incorrect.

Another Trans-Atlantic Race. GLASGOW, Sept. 2.—A newspaper here says that Emperor William is arranging for another trans-Atlantic yacht race to be sailed in the summer of 1997.

STRIKE OF METAL WORKERS

ANY ENVIRONMENT OF THE PARTY OF

Building Operations in New York Are Badly Crippled.

NEW YORK, Sept. L -- A strike of the sheet metal workers in this district was called last night by the Amalgamated Sheet Metal Workers' union. About 2000 members attended the meeting and he call for the strike was almost unan-

The strike will affect some 200 build-The strike will affect some 200 buildings which are in course of construction, and about 100 shops in which the metal workers are employed. The men demand an advance of 50 cents a day. Their wages now are 34 a day. They claimed that about a year ago they en-tered into an agreement whereby they were to receive the raise last January. The men did not get the promised in-crease, however, and several months ago notified the employers that if the advance was not forthcoming there would be a strike.

UNION TO FIGHT UNION

Chicago Strike-Breakers See Advantage of Organization.

CHICAGO, Sept. 1.—Believing that their struces will seen be in demand again wing to the printers' strike, special depi-ity sheriffs and policemen held a secret teeting yesterday and organized a strike scakers' union.

FLASHES FROM THE WIRE

Notice has been received in New York that cable communication between Manila and lapan is totally interrupted. Messages are eding sent forward by mail.

James H. Clark, the former associate of John D. Reckefeller in the oil refining busi-ness, died at his bome near Madison, O., from parallysis, aged 72.

Taknova persons supposed to be union painters seeking revenge for the loss of the contract to paint the new residence of F. W. Baker, a Soattle processymb, daubied coal far and eroosts over the outside of the building, which has been freshly painted by nea-union men, and so damesed it that practically all the woodwork will have to be norm off and replaced. The damage to the owner of the property is high. The officers of the Painters' union repudiate the charges made against individual members.

THE PEOPLE'S MONEY

There hain't no water to be got,
So, course, there's none to turn
On fires in Zhon to make 'em stop.
We'll simply let 'em burn.
We've got a million dollars, though,
What makes us fellers lich
To jost increase the water flow.
In every street and ditch.

The thirsty gasp of burnin folks.

What uster own this coin.
Is one of the all-firedest jokes.

What we, who outher join.
The Prophet's Church, e'er chanced to see;
Why should they raise a row.
Jost 'cause the gutters all will be.

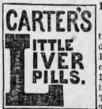

Fuller than they are now.

East Jordan with its compiness
Hain't fit to drink, nohow;
But then some Sciuts in hollness
(it's cute of them, I 'low')
Have nurchased up most all the stock,
So we, what hold the cash,
Are goin' to buy all what they got—
Souplness, mud and trash.

It hain't towards water that we lean, t hain't towards water that we lean,
But stock in water works.
We none don't care for mud ner clean,
Ner second feet it squirts.
We want a place where we can spend.
The people's money at.
And if we whark up with a friend,
Why should you kick 'g'inst that?

You folks have never seen the crock Of Prophet Joseph's thumb; He knows the Council like a book, And what Je sez is dete. We'll still keep water flowin' through. The gutters feat the same, If you don't git what Prophets do, Why, say, bain't God to blame?

NEW POSTOFFICE IS NEARLY READY

Will Probably Be Occupied on or About the First of October.

When will the Federal building be reads for occupancy? This is a question which has been asked times without number within the past three months, but it seems as difficult now to fix a definite date as it was at the beginning of the summer. So far as the building itself is concerned, that will be finished, with the exception of the part devoted to the exception of the part devoted to the postoffice, on September 15. The completion of the postoffice floor will require at least fifteen days longer, and will be ready for the furnishings on October 1.

The delay in furnishing the building is due in great part to the cabinet makers' strike in Chicago, where a large part of the office furniture was being made. Thus far but six bookcases and two safes have been received from that city in addition to the entire lot of chairs to be used.

Delay in Receiving Boxes.

Boxes for the postoffice were ordered for June last, but word received yester-lay was to the effect that they were shipped from Meriden. Conn., on August 25. This means that they will not reach Sait Lake for at least three weeks. There are 1900 of these boxes and several days will be required to set them in place.

Furnishings Cost Money.

All the woodwork of the new building is of oak, and the furniture is to be of the same substantial wood. Part of the reome are to be covered with heavy Brussels carpets, while the more public portions of the building will be covered with incleum. The latter is to be purchased here, but the carpets are to come from the East. Window shades, typewriter desks, cuspideres and other minor accessories are also to be purchased here, and contracts for these will be let in a few days. The furnishings for the entire building are to cost about \$20,000.

Three Years in Building.

Three years ago last July the erection of the Federal building was begun. Dorsey Ash, who was then superintending he erection of a Government building in Jalifornia, was ordered here to superinced the erection of the Federal building. tend the crection of the Federal building, for which the Government had appropriated \$59,000. Except during brief intervals, work on the building has gone on steadily and when turned over to the custodian, Arthur L. Thomas, Mr. Ash considers that it will be one of the finest structures of its kind in the country.

Is Handsome Building. Is Handsoma Building.

Built of Cayune sandstone, with interior finishings of white green-veined marble, the building contains in all sixty-one rooms. This number includes thirteen layatories and a large coal room in the basement. The entire ground floor of the building and a part of the basement are to be used by the postoffice department. On the second floor will be found the Circuit and District court rooms, the Judges chambers, a witness room and quarters for the Clerk of the court, the United States Marshal and the United States District Attorney.

On Third Floor.

The United States Land office, the office of the inspector of immigration and three jury rooms will be found on the third floor, while on the fourth floor the Surveyor General will occupy five rooms, the Collector of Internal Revenue four, the remainder of the floor space being taken up by five filling rooms.

Putting on Finishing Touches.

Just now men are engaged in finishing he marble work, and this will be done in few days. Fainters are eiling the floors and putting the finishing touches on the voodwork. What is known as the electical contract is finished, but the fixures, which were ordered from the out-ride by the Government, have not yet arrived. The plumbing is all completed, and the two Otis elevators are ready to coperated at any time.

Heating Plant in Place

Heating Plant in Place.

The heating plant also is in place, the heat to be both direct and indirect. An eight-foot fan, driven by a twenty horse-power motor ventilates the building and furnishes the indirect heat. The heating plan consists of three eight-foot boilers of 125 horse-power each. The temperature of the building is controlled automatically.

Fireproof Throughout.

With the exception of the windows, the doors and the finish of the floors, the building is fireproof throughout. The floors are of concrete, with wood finish, and the partitions are made of terra cotta. The frame of the building is of steel. Safety vaults to the number of twelve, with combination steel doors, have been erected in the building, in addition to the five portable safes which are to be placed as soon as the building is finished.

Will Soon Turn Over Keys.

Will Soon Turn Over Keys.

Will Soon Turn Over Keys.

Mr. Ash, who has superintended the construction of the building from the time the foundation was begun, has about finished his work and will hand over the keys to Custodian Thomas in a few weeks. As soon as his work here is finished, Mr. Ash will leave the city, but has as yet received no orders as to where he will next be stationed. Mr. and Mrs. Ash have made their home here for the past three years, and their departure will be a source of regret to many friends made during their stay.

UNSPEAKABLE CRUELTIES

Congo Natives Caused to Eat Flesh of Relatives.

PARIS, Sept. 1.—As a result of the investigation of Count de Brazza, the African explorer, into the charges of brutality against natives of the French Congo, the Government announced today that the chief colonial functionaries, M. Gaud and Toque, have been sentenced to five years' imprisonment. The charges included compelling the attives to set align made of the flexible. natives to eat a dish made of the flesh of dead relatives, and also exploding cartridges inserted in the bodies of na-

FAILURE IN LABRADOR

Lick Commission Encountered Clouds in the North.

in the North.

ST. JOHNS. N. F. Sept. 1.—The Lick observatory commissior which went to Cartwright. Labrador, to observe the solar eclipse of Wednesday last, met with complete failure. Heavy banks of clouds obscured the heavens during the entire period of eclipse and the result of the attempted observations was so unsatisfactory that the astronomers will not even attempt to develop the photographic plates which were exposed.

The report of the failure of the mission was brought here today by Gov McGregor, who had accompanied the party to Cartwright and who returned here today. The Governor feared also that the expedition sent out by the German and the Canadlan Governments, which was located at Hamilton, only fifty miles from Cartwright, was fully as unfortunate as that from Lick.

Boston Passes Half-Million Mark. BOSTON, Sept. 1.—The population of the State of Massachusetts is 2,398,568, ac cording to a preliminary report made to-day by the State bureau of statisticians. This is an increase of 48,775 over 1896, when the last official census was taken. Boston's population is 99,598, an increase of 99,578 in the past ten years.

PFISTER GIVES

Details Disposition of Money of Which He Was the Custodian.

ALL PAID OUT ON ORDER OF PARTIES INTERESTED

Declares Not Slightest Evidence of the Misappropriation of a Dollar.

The Milwankee Sentinel, of which Charles F. Pfister is the principal owner, requests the publication of the following: MILWAUKEE, Sept. 1.-Charles F. Pflster, the capitalist, who was indicted three weeks ago by the grand jury on the charge of having stolen \$14,000, which had been placed in his hands by the Wisconsin Rendering company, will make public to-

After the indictment was returned the president of the rendering company decided that Mr. Pfister had misappropriated any of its money, and since their Mr. Pfister alleges, the company has made full payment on notes held against it by Mr. Pfister without offering any counterclaim. The instruction, however, has been circulated that the money, if not misappropriated, was used for a corrupt purpose by Mr. Pfister.

Cites Bank Record.

President Denies the Charge.

Cites Bank Record. statement now issued is corrobo-by the bank record, showing Mr Pfister's personal account, by a statement signed by President F. G. Genoss, Joseph Schaff and Louis Schoyer of the Wiscon-sin Rendering company, and also by a statement issued by John J. Crilley, the contractor to whom most of the money

Crilley Explains Deal.

Crilley Explains Deal.

Crilley, in acknowledging the payments to him, explains that at the time the city contract was awarded to his firm he found himself unable to enter into the contract on account of lack of funds. He then entered into an agreement with the Wisconsin Rendering company, which had an established plant at Mequon, that if that company would put up \$25,000 with some responsible man, out of which was to be paid the expenses Crilley was put to in connection with the contract, the work would be turned over to the renderwork would be turned over to the render

Made Pfister Custodian.

Mr. Prister was selected as the custedian of this fund. He had no interest with any of the bidders, and paid out the money in accordance with the orders of the parties interested and had nothing to do with it further. Some of this money, Crilley states, was used for unlawful purposes.

What Payments Show.

The payments show conclusively that Mr. Pfister did not steal any of the rendering company's money, and also that he did not use any of it in an improper manner. A supplemental statement by Mr. Pfister's attorneys disclosed the fact that when the grand jury had the indictment under consideration two of its members, together with District Attorney McGovern, visited the First National bank and there received Mr. Pfister's permission to examine his account.

Save Jurors Disregarded Credits.

Says Jurors Disregarded Credits.

Says Jurors Disregarded Credits.

They found the entry showing the deposit of \$25,000 on July 19, 1897, but apparently disregarded entries on the same page showing the paymerts of \$600 and \$2000 respectively to Crilley, nor did they call upon Mr. Pfister for any explanation, which would readily have put them in possession of facts showing the charge of theft to be without foundation. The statement now issued seems to show there is no basis either for the Indictment on a charge of larceny nor for the accusations that the money held by Mr. Pfister's statement showing the disbursements is as follows:

Disbursements Claimed.

7,000

Tetal

All Payments Authorized. All Payments Authorized.

All of these payments were made at the express direction of the officers of the Wesconsin Rendering company and in accordance with the agreement under which the money was left with me. I had neither part nor interest in nor knowledge of any efforts made by any one to secure the garbane contract referred to in the indictment against me, or to secure the work to be done at the rendering company's plant, or at any other place. I acted merely as a depository to accommodate the parties interacted, received no compensation and knew nothing about the items gring to make up the amounts paid to Mr. Crilley or any other person. There was never a suggestion that this money or any part of it was to be used for any corrupt or unlawful purpose or to replace money which had been so used.

CHARLES F. PFISTER.

Annual clambake at Lagoon, Labor

Will Be Arraigned This Morning.

W. Wells and James Richardson, both 21 years of age and residents of this city; Tillio Monson. Is years of age, of Provo, and May Christensen, 17 years of age, of Bingham, were arrested early yesterday morning at a local lodging house by Policemen Williams and Leaver, on the charge of immoral conduct. They will be arraigned in the City court this morning.

FRILLS FOR STREET, NOTHING IN LAKDER

This the Way Salt Lake City Government Is Being Run.

While the city officials are quietly but diligently finding obscure channels brough which the people's money may low, they calmly neglect the flow or water in the city mains and permit the ntire city of Sait Lake to be absolutely without fire protection for hours. The records of the fire department of

The records of the fire department of the city provide a study in figures which are appailing to the average citizen. The water pressure has been, and should be, averaging between 80 and 100. Yet at half-past 6 last night the pressure was zero—nothing. This astonishing condition prevailed until 8 o'clock, when the dial stood at 1. At half-past 9 last night 16 was registered. At noon yesterday, when business activity is usually at its height, there was a pressure of 21. The highest pressure of the day was 88, at 5 a. m.

Thus was Sait Lake City entirely at the mercy of fismes, just as the citizens are helpless in the hands of an administration which must spend \$1,000.00.

Water Goes to Waste.

Water Goes to Waste.

During the day millions of gallons merrily splashed their useless way through the gutters of the city. If the water flowing through the gutters is not it to be sent through the mains for domestic and fire purposes, it is very evident that the East Jordan canal water will also be sent through the gutters as an ormament. This will necessitate calarged gutters, but the city has plenty of money to spend. The administration might as well use this great graft fund on soapy water as any other, as the question of an adequate supply must give way to the everpresent necessity of spending the money.

Frills for the Street.

Frills for the Street. The affairs of Salt Lake are being conducted very much on the lines of some people. There may be nothing to eat in the larder, yet there are plenty of felliand ornaments for the street. The people may go thirsty, the city may be in danger of inconceivable fire loss, yet the gutters must be adorned with floods without crashy.

Water in the Gutters.

For weeks the business portion of the city at certain hours has been without sufficient water for the most ordinary purposes. Hotels, filled with tourists, must apologize for the absence of water. The guests, solled and tired from their journey, philosophically do without the customary buth, and drawing their chairs to the edge of the sidewalk, wonder who the lucky fellow is who owns the gutters.

Complaints Come Past

Complaints Come Fast. All over the city there was a complaint registered yesterday. Entire districts were without water all afternoon and evening. People living near Liberty park used the water there in spite of official knocking on its quality.

One of Many Cases.

An aggravated case, one among many, was that at the home of P. E. McKinney of Windsor avenue. Not a drop of water was to be had at Mr. McKinney's home from noon to midnight. On many occasions this has occurred, forcing the residents of that neighborhood to distant points for water as well as depriving them. them of fire protection No Water at All. Any building of more than one story, where business activity is most pronounced during the hours when the pressure is lowest, such as the Knutsford, Kenyon, Wilson and Cullen hotels, and
